

## 3M™ Combination Wrist Strap and Footwear Tester

This basic combination wrist strap and footwear tester allows associates to test their own wrist straps, heel grounders or shoes. Results are immediate and easy to understand. A red light indicates high resistance and a yellow light indicates a resistance that is too low. A green "Pass" light and tone indicator indicate a resistance in the acceptable range. Acceptable range is 750k to 100 megohm for footwear. Battery or AC powered. Some assembly required.

3M™ Combination Tester

Product No.
