

Adenna® Sterilization Pouches, Triple Seal

Key Features

ADENNA® Self-Sealing Sterilization Pouches are designed for use in steam (vapor) and ethylene oxide (ETO) sterilizers. They are manufactured in an ISO certified facility under strict quality control. They feature both built-in internal and external indicators that change color to confirm sterility of the contents, meeting the CDC's recommendation.

Adenna's Sterilization Pouches have a Triple Seal, Triple Heat Process which means the edges of the pouch are sealed by three separately heat-sealed rails, which is stronger than single sealed rail, to prevent separation or tearing by instruments. Medical grade paper also helps to make the pouches more durable because the paper is wet strength treated for high performance. Features such as a perforated fold, corner tack seals and thumb notch make these pouches all around easier to use when sterilizing product.

ADENNA® Self-Sealing Sterilization Pouches were evaluated by the Dental Advisor (TDA) independent clinician consultants in over 5,800 uses and received an 86% clinical rating, + + + + (Very Good) out of the best 5 +'s scale. See ADENNA® Sterilization Pouches TDA Review.

SKU	SPH7514
Brand	Adenna®
Case Height (inches)	10.00
Case Length (inches)	14.75
Case Weight (lbs.)	21.14
Case Width (inches)	8.75
Count of Inner Packs	10
Country of Origin	CN
Full Product Description	Adenna® Self-Sealing Sterilization Pouches, 7 1/2"X14" (7 1/2"X13"), 100/bx, 10 bxs/cs
GTIN UPC	653195875146
Hazmat / DOT	N
HTS CODE	4819.40.00.40
Inner Packaging	Box
Inner Quantity	100
Lot coding	Y
NMFC	056680
Packaging Put/Up	Case
Sell UOM Height (inches)	15.30
Sell UOM Length (inches)	14.90
Sell UOM Weight (lbs.)	19.10
Sell UOM Width (inches)	8.50
Selling UOM	Case
Size	14" x 7.5"
Yield	1.00
