PRODUCT DATASHEET

UT7512 Polyethylene Medium Adhesion Room Sealing Tape

DESCRIPTION

UltraTape 7512 tape is specifically designed for sealing gaps, doorways and pass-throughs in cleanroom and other critical environment areas. This cleanroom certified tape has specially formulated adhesive that leaves no residue even after prolonged use.

PROPERTIES

- Residue free removal, no ghosting.
- Excellent ability to conform to uneven surfaces and create better seals.
- Extremely low levels of metals, halogens, and outgassing.
- Cleanroom certified

To achieve ultimate adhesion, the bonding surface should be clean, dry, and free of dirt and oils. The strength of the adhesive bond is dependent on the amount of surface area directly in contact with the adhesive. Firm pressure is recommended to achieve good adhesive to surface contact.

UltraTape recommends that each user conduct their own test to determine the product's suitability for the intended application and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
