

TEXAS TECHNOLOGIES, INC.

PROUDLY PARTNERING WITH ULTRA TAPE

Why Choose Our Cleanroom Labels?

For more than 30 years, UltraTape, has been the world's leading provider of cleanroom tape and label products. We deliver highly durable label products manufactured from particle-free, residue-free face stock, adhesives, and cores to prevent contamination in today's critical environments.

Standard and Custom Cleanroom Labels

Label Types:

- Direct Thermal and Thermal Transfer: Suitable for various printing methods
- Deadened Adhesive Zones: Prevents adhesive from sticking to unwanted areas
- Continuous Label Stock: Available for uninterrupted labeling needs.
- Printable Surfaces: Compatible with thermal transfer, direct thermal, dot matrix, and cleanroom pens
- Preprinted Labels: Customizable with specific information as required
- Custom die cut shapes
- Security Labels
- Custom constructions - if you can think it - we can make it.

Material Composition:

Synthetic Facestock: Made from materials like polypropylene and polyester, ensuring durability and resistance to moisture, acids, gases, and salts. Will not particulate.

Low Out-Gassing Adhesives: Available in various peel strengths, these adhesives minimize contamination risks.

Packaging and Processing:

Vacuum Packaged: Ensures the labels remain free from contaminants.

Double Bagged: Packaged in certified silicon-free MDPE bags for added protection.

Cleanroom Processing: Labels are processed in a fully ionized cleanroom to maintain purity. Labels are suitable for use in Class 1 (ISO 3) to Class 100,000 (ISO 8) Cleanrooms.

Irradiated: Labels can be irradiated and provided with certificate of irradiation and lot tractability

Cleanroom Printers and Ribbons

The UltraLabel PRO™ 300 and 600 DPI printers are specifically designed for critical environments. The printers are available in both standard and high-resolution options and support a range of label-making applications including barcoding, serialization, inventory-control identification, product labels, pipe markers and GHS labels.

The UltraLabel PRO is compact and versatile and can easily be integrated into any cleanroom environment. The printer and all related supplies are cleanroom certified and packaged to keep them free from contaminants

We offer a variety of cleanroom compatible thermal transfer thermal printer ribbons.
