

Safer for the environment

EcoSpray™ and EcoClean® products do not contain propellants, CFCs, or HCFCs that affect the atmosphere, ozone layer, or environment. When possible, EcoSpray™ and EcoClean® products are formulated with ingredients rated for their biodegradability and non-polluting characteristics, minimizing waste disposal.

Safer for storage*

EcoSpray™ and EcoClean® products have no storage or added fire insurance restrictions. They can be stored like any non-aerosol lubricant or cleaner at room temperature. Do not let product freeze.

Safer for shipping*

EcoSpray™ and EcoClean® products are non-hazardous for transport and can be shipped by air freight or any other conventional shipping method.

Environmentally Friendly Spray Technology

EcoSpray™ and EcoClean® products attack the toughest maintenance duties with respect for the environment. Where possible, they incorporate non-toxic, biodegradable chemicals without aerosols, propellants, or ozone-depleting CFCs. Fast-acting, dependable, and safe to handle, EcoSpray™ and EcoClean® lead the way in environmentally safe technology.

Product	Description	Application
EcoSpray™ Electronic Cleaner Protector VpCl®-238	An electronic cleaner containing vapor phase corrosion inhibitors. Forms a thin protective film that does not interfere with conductivity.	Cleans and protects electrical and electronic contacts and components from corrosion. ^{1,2}
EcoSpray™ Cleaner & Degreaser VpCl®-416	Heavy-duty water-based alkaline cleaner and degreaser with unique flash corrosion protection.	Removes heavy deposits such as hydrocarbons, grease, drawing and buffing compounds, and machinery compounds from machinery, sheet metal, and other metal parts. ¹
EcoSpray™ Industrial Lubricant VpCl®-325	Convenient, ready-to-use vegetable oil/solvent-based liquid for general purpose corrosion protection. Tenacious wet film clings to metal surface and displaces water.	Protection of sheet metals, wire, pipes, flanges, machined parts, and guns. Excellent for maintenance and lubrication. Loosens rusty parts. ¹
EcoSpray™ Rust Blocker VpCl®-389	Water-based coating to rust-proof iron, steel, and other ferrous metals. An environmentally friendly replacement to oil-based products.	Indoor and outdoor corrosion protection for equipment and metal parts. ¹
EcoClean® Rust Remover VpCl®-423	Environmentally-friendly biodegradable organic rust remover. USDA Certified Biobased Product.	Removal of rust/corrosion from metal surfaces. ^{1,3} Neutralize with EcoSpray™ Cleaner & Degreaser.
EcoClean® Graffiti Remover VpCl®-4330	Exceptionally smooth flowing graffiti removal gel with flash corrosion protection. Contains no methylene chloride, ketones, chromates, phenols, chlorinated solvents, methanol, toluene, or acetone.	Removal of graffiti, inks, and paints from metal, concrete, and wood. ¹
EcoClean® Silver and Gold Cleaner	Cleaner for safely and effectively removing oxides, grease, oils, and other contamination from silver and gold. Superior prevention of oxides/tarnish. Worker and environmentally friendly.	Superior cleaning of electrical contacts, silverware, jewelry, and other silver or gold plated surfaces.

EcoSpray™/EcoClean® products are designed for enhanced consumer and environmental safety.

Additional packaging options:

¹Also available in liquid 5 gals (19 L), 55 gals (208 L), totes, and bulk.

²Also available in aerosol as ElectriCorr® VpCl®-238.

³Also available in EcoAir® air-powered spray cans.
